ARTIST BIO

MAXII

MAXII is a UK-based Afro artist, producer and songwriter whose creative journey began in Sierra Leone.

A multi-skilled creator with a background spanning music production, songwriting, performance, radio and audio engineering, MAXII approaches his work from both sides of the microphone - building records as a producer while delivering them as an artist.

His sound draws from African rhythm and melody while embracing contemporary global production, creating music designed to travel beyond borders without losing its identity.

His international reach expanded through **IZY QUEEN (Please Don't)**, whose success across Fiji and the wider Pacific demonstrated the cross-border potential of MAXII's sound.

INTERNATIONAL BREAKTHROUGH

ONE RECORD. NEW TERRITORIES.

MAXII's music found an unexpected international audience when **IZY QUEEN (Please Don't)** connected with listeners in Fiji and across the Pacific. The record grew organically across the region, gaining sustained traction across radio and digital platforms and accumulating more than **14 million plays on YouTube Music**.

That cross-border breakthrough now informs a wider mission: **build a distinctly African sound with genuinely global reach.**
